Bentek Solar Announces First Orders for Its Industry Leading 400 Amp Integrated Disconnect Combiners

SAN JOSE, CA — August 2010 — Bentek Solar, a leader in manufacturing and engineering solutions for complex electro-mechanical and power distribution systems for the semiconductor and solar industries, announces that the company has taken its first orders for the new industry-leading 400 Amp Integrated Disconnect Combiners.

“We are pleased to receive positive market acceptance of our newest full 400 amp UL rated and approved combiner models. Clearly, there is a need in the marketplace for combiners that can meet the increasing power requirements of today’s new solar projects,” said Mitch Schoch President and CEO of Bentek Solar.

Disconnect combiners with integrated UL 600VDC and 1000VDC load-break disconnects reduce costs by eliminating installation, time and wiring. The combiners feature a flexible design for customization and ease of installation as well as an enhanced level of user safety.

For more information about Bentek Solar’s 28A, 55A, 75A, 100A, 150A, 200A, 245A and 400A Integrated Disconnect Combiners or to view online data sheets, visit www.BentekSolar.com.

About Bentek Solar

Founded in 1985, Bentek is a leader in manufacturing and engineering solutions for complex electro-mechanical and power distribution systems for the semiconductor and solar industries. Bentek has applied these extensive capabilities and knowledge into a comprehensive family of standard and configure-to-order (CTO) solar combiner products. These solar combiners provide quality, ease of installation and safety to the solar industry.
