Borrego Solar and Bentek Solar Renew 25MW Solar Supply Agreement

SAN JOSE, CA — January 2012 –Bentek Solar, a leader in Balance of System (BOS) design and manufacturing for commercial and utility scale solar PV products, and Borrego Solar Systems, Inc., a leading financier, designer and integrator of [commercial PV solar systems](#), today announced a 25 megawatt (MW) supply agreement. Bentek Solar will supply a range of large scale combiners, re-combiners, disconnect safety systems and accessories to Borrego Solar for use on its PV solar systems.

“We are pleased to renew and add new Bentek Solar products to our partnership agreement with Borrego Solar. We are extremely pleased to be part of Borrego’s success and we look forward to continuing to meet Borrego customers’ needs with high-reliability, high-quality PV Solar products,” said Mitch Schoch, President and CEO of Bentek.

“Bentek has proven to be a valuable partner in supplying us with Balance of System products” said Chris Anderson, CTO of Borrego Solar. “It has come through with well-designed, well-made and cost-competitive disconnecting combiners and array combiners. We look forward to expanding our specification with Bentek to include both its circuit breaker and multiple disconnect safety switches.”

Mitch Schoch, President & CEO of Bentek Solar, and Chris Anderson, CTO Of Borrego Solar

About Bentek Solar

Founded in 1985, Bentek is a leader in manufacturing and engineering solutions for complex electro-mechanical and power distribution systems for the semiconductor and solar industries. Bentek has applied these extensive capabilities and knowledge into a comprehensive family of standard and configure-to-order (CTO) solar combiner products. These solar combiners provide quality, ease of installation and safety to the solar industry.

About Borrego Solar

Established in 1980, Borrego Solar Systems, Inc. is one of the nation's leading financiers, designers and installers of commercial and government grid-connected solar electric power systems. Borrego Solar's photovoltaic systems are efficient, reliable and cost-effective. With more than three decades of experience and more than 1,000 installations completed—totaling more than 45 MW—Borrego Solar offers a complete line of design and installation services throughout the country.
