FREE Stencil, Underside Wipe and Misprint Cleaning Webinar hosted by ZESTRON Academy

Manassas, VA – August 6, 2018 [ZESTRON](#), the globally leading provider of high precision cleaning products, services and training solutions in the electronics manufacturing and semiconductor industries, is pleased to announce that it will host the “Stencil, Underside Wipe and Misprint Cleaning” webinar on Thursday, August 30th, from 1:30 PM to 2:30 PM EDT. This is the sixth installment of the ZESTRON Academy 2018 Cleaning Webinar Series, and will be presented by our Application Technology Engineer, Kalyan Nukala, M.S.Ch.E.

This webinar provides an overview of process issues related to paste and adhesive contaminated stencils, stencil cleaning technology as well as implications of cleaning nano-coated stencils. Misprint cleaning and principles of the underside wipe process will also be addressed.

“We invite both new and experienced industry members to attend this free session as we’ll review stencil and misprint cleaning best practices, and equipment options,” said Sal Sparacino, Sales and Marketing Manager, ZESTRON Americas.

For more information or to register for this free webinar, [visit here](#).

About ZESTRON:

Headquartered in Manassas, Virginia, and operating in more than 35 countries, ZESTRON is the globally leading provider of high precision cleaning products, services and training solutions for the electronics manufacturing industry. With eight worldwide technical centers and the largest team of engineers focused on high precision cleaning, ZESTRON’s commitment to ensuring that its customers surpass even the most stringent cleaning requirements is without equal.
