FOR IMMEDIATE RELEASE

Libra Industries Supports the Pan Pacific Microelectronics Symposium

MENTOR, OH — January 2017 — Libra Industries, a privately held electronics manufacturing services (EMS) provider, is pleased to announce that it is a corporate sponsor of the 2017 Pan Pacific Microelectronics Symposium. The event is scheduled to take place February 6-9, 2017 in Kauai, Hawaii. Libra Industries has always been and remains very passionate about supporting the efforts and mission of the SMTA.

The Pan Pac technical committee has finalized the program for the 2017 Pan Pacific Microelectronics Symposium at the Sheraton Poipu Kauai Resort. In addition to several inspiring keynotes, this program features ground-breaking research from global experts on advanced processes, design, embedding and Fan-Out packaging, interposer technology, materials, nanotechnology, quality, reliability, roadmaps and manufacturing strategies.

The Pan Pacific Microelectronics Symposium promotes international technical interchange and provides a premier forum for networking among microelectronics professionals and business leaders throughout the world. Libra Industries continually provides exceptional support of the SMTA and has sponsored numerous SMTA events over the years.

Libra Industries serves a diverse base of industries such as medical, military/aerospace, industrial and LED lighting with the highest quality requirements. Libra Industries continues to invest to provide customized manufacturing solutions to help make its customers more competitive and improve their profitability. About Libra Industries

Libra Industries is a leading provider of integrated Electronic Manufacturing Services (EMS), serving OEMs with complex or technologically sophisticated manufacturing requirements in a broad range of industries including industrial automation, medical, military and aerospace, instrumentation and LED lighting. Four world-class manufacturing facilities allow Libra Industries to provide customers with manufacturing flexibility including complete system build, module and subassembly production, as well as simple to complex PC board assembly. With an ongoing commitment to investment in people, quality systems, and the latest manufacturing equipment and processes, Libra Industries is committed to managing their clients' products from initial design and

prototype to full production; assisting their clients in their efforts to improve time to market, reduce total systems cost, and increase quality.
