FOR IMMEDIATE RELEASE

MIRTEC Europe Announces Most Successful Year to Date

December 2016 – MIRTEC, “The Global Leader in Inspection Technology,” today announced that 2016 has been the company’s best year since its opening in 2008.

“This is an amazing achievement when you consider the world-changing events such as the UK Brexit and the USA elections, just two of the major events that shook the financial world this year,” commented David Bennett, President of MIRTEC Europe. “Yet, unperturbed, we were able to bring in a record year, and for that I thank our distributors, the MIRTEC Europe team, and our colleagues at MIRTEC HQ for their contributions.”

Over the past several years, MIRTEC has earned a solid reputation with leading OEM and EMS companies throughout the world for its technologically advanced inspection systems.

MIRTEC products have been extremely successful in high-volume markets including cell phone and MP3 player manufacturing, as well as low-volume high-mix markets such as medical, automotive, aerospace and defense. MIRTEC invests heavily in Research and Development, persistently focused on using state-of-the-art optics, lighting and laser technology in the development of their inspection solutions. Despite current economic conditions, MIRTEC Europe has recorded double digit growth in global revenue which is testimony to the company's exceptional product offering, strong global sales network and outstanding customer support.

MIRTEC focuses on advancements within the electronics manufacturing industry and continues to invest in Research and Development, using state-of-the-art optics, lighting, laser and 3D technology to develop the industry's most technologically advanced inspection solutions. This, combined with a talented sales and support team, has resulted in the company's continued expansion of market share. Now, with the added convenience of direct sales in the UK and Ireland, MIRTEC Europe expects to further reinforce its business as well as its customer service.

MIRTEC Europe prides itself on its business philosophy of providing customers with the highest quality products and services at competitive pricing, and recognizes that customers are the source of future growth and, as such, strives for a strong, reliable and long-term partnership based on trust and respect.
