

SST Organization Announcement

Matt Vorona

SST International of Downey, CA, is pleased to announce that Matt Vorona has joined the company as Regional Sales Manager.

Matt has spent the majority of his 30 year business career at Orthodyne Electronics, (now K&S) and has deep experience in the device packaging and bonding segments of our industry.

In his role at SST Matt will be responsible for sales, market, and business development in North America and Europe. He will report to Alex Voronel, Director of Global Sales, and will be based from SST corporate offices.

We are delighted to have Matt join the STT team and we look forward to the contributions he will make bringing his knowledge, professionalism, and drive to our customers, our markets, and the company.

SST International, of Downey, Ca, designs, manufactures and markets vacuum reflow systems to create void free and flux free eutectic die bonds and hermetically sealed packages for high performance electronic devices.

SST is a wholly owned subsidiary of Palomar Technologies, Carlsbad, CA.
