New Die Attach Paste for Small Die on Copper Leadframes

Developed specifically for small die on copper leadframes, Hysol® QMI708 die attach paste is a high performance paste for use in today's small footprint devices. The innovative new material has been formulated to attach die 2.5mm x 2.5mm and smaller in QFN and SOIC packages using copper finished leadframes and is highly conductive. Hysol QMI708 dispenses exceptionally fast with no tailing and delivers outstanding performance characteristics. With incredibly low bondjoint resistance, set up time of less than 5 minutes, consistent bondlines, the ability to oven cure or snap cure and high JEDEC performance, Hysol QMI708 provides semiconductor packaging specialists with the superior performance and manufacturing flexibility required for advanced package production.

About the electronics group of Henkel

Henkel is one of the world's leading and most progressive providers of qualified, compatible material sets for semiconductor packaging, board level assembly and advanced soldering solutions. Through its Hysol, Loctite and Multicore brands, and its global customer support infrastructure, the electronics group of Henkel delivers world-class materials products, process expertise and total solutions across the board to enable tomorrow's electronics Industry.

Henkel, a Fortune Global 500 company, operates in three strategic business areas: Home Care; Personal Care; and Adhesives, Sealants and Surface Treatments, which serves the transportation, electronics, aerospace, metal, durable goods, consumer goods, maintenance and repair and packaging industries, and offers a broad range of products for the craftsman and consumer. In fiscal 2005 Henkel generated sales of 11.974 billion euros. A leader in brands and technologies, Henkel makes people's lives easier, better, and more beautiful. More than 50,000 employees work for Henkel worldwide. People in 125 countries around the world trust in brands and technologies from Henkel – "A Brand like a Friend".
