

For Immediate Release:

Successful Fabless Semiconductor 2011:

Technology and supply chain challenges for fabless semiconductor companies

Lyon, France – Oct. 21, 2011 –Yole Développement and Serma Technologies announced the completion of Successful Fabless Semiconductor 2011 program.

Come, discover and exchange with the fabless companies world: what will be the tomorrow's technologies to be mastered by fabless companies? How could the fabless companies and their partners integrate this new expertise? How will they set up the collaborations with other companies? ...

With three main sessions, **Industrialization, Design and Packaging**, SSF 2011 program includes 14 international speakers. They are:

Advanced Packaging Center, Amkor Technology, ASE Group, Delta Microelectronics, Dialog, Dibcom, ID MOS, LFoundry, STATS ChipPac, System Plus Consulting, Unisem, X-Fab, Serma Technologies and Yole Developpement.

Presentations covers technology and supply chain challenges for the fabless companies.

More than just a conference, this event includes debates and numerous networking times all along the days. Yole Developpement and Serma Technologies expect **about 100 attendees coming from the IC, ASICs, Power Electronics, Compound Semiconductors, Advanced Packaging, MEMS... areas.** Presentations, discussion & exchange, welcome cocktail, lunches, dinner ... all have been organized to facilitate the networking during the 3 days.

So do not miss the opportunity to meet the key players, share point of views and debate about technologies issues, business development, market organization...

Register today to attend Successful Semiconductor Fabless 2011. Visit the website www.ssf2011.fr for more information and to register.

About Serma Technologies – www.serma-technologies.com/en

Specialized in electronics expertise and consulting, SERMA TECHNOLOGIES offers services in Electronic Technologies Management. Laboratory of analyses and expertise on components, boards and systems at a glance, SERMA TECHNOLOGIES has developed its expertise in industrial process management and technologies, up to the integration process

About Yole Développement – www.yole.fr

Beginning in 1998 with Yole Développement, we have grown to become a group of companies providing market research, technology analysis, strategy consulting, media in addition to finance services. With a solid focus on emerging applications using silicon and/or micro manufacturing Yole Développement group has expanded to include more than 40 associates worldwide covering MEMS, Microfluidics & Medical, Advanced Packaging, Compound Semiconductors, Power Electronics, LED, and Photovoltaic. The group supports companies, investors and R&D organizations worldwide to help them understand markets and follow technology trends to develop their business.
