## ZESTRON Academy to Host FREE "Should You Clean PCBs?" Webinar

**Manassas, VA – March 6, 2019** [ZESTRON](#), the global leading provider of high precision cleaning products, services, and training solutions in the electronics manufacturing and semiconductor industries, is pleased to announce that it will host "Should You Clean PCBs?" on Thursday March 21<sup>st</sup>, from 1:30 PM to 2:30 PM EDT. This is the first installment of the ZESTRON Academy 2019 Cleaning Webinar Series, and will be presented by our industry expert, Umut Tosun, M.S.Ch.E, Application Technology Manager.

### **Webinar Abstract:**

Removing impurities from a printed circuit board's surface and underneath its components is critically important to ensuring the reliability of electronic assemblies. This ZESTRON Academy webinar provides insight into potential sources of board failure such as electrochemical migration, leakage currents, and white residues then explores the methods and benefits of fully cleaning PCBs.

"Do not miss out on this opportunity to review the fundamentals of electronic cleaning processes and how this impacts the long-term reliability of critical electronics assemblies," said Sal Sparacino, Sales and Marketing Manager, ZESTRON.

For more information or to register for this free webinar visit us [online](#).

### **About ZESTRON:**

ZESTRON is headquartered in Manassas, Virginia and operates in more than 35 countries. With eight technical centers worldwide and the industry's most knowledgeable team of engineers focused on high precision cleaning, ZESTRON's commitment to ensuring that its customers surpass even the most stringent cleaning requirements is without equal.

For additional information or to tour one of our technical centers, please visit [www.zestron.com](http://www.zestron.com).
