ZESTRON will be Exhibiting at SEMICON West

Manassas, VA – July 3, 2019 [ZESTRON](#), the global leading provider of high precision cleaning products, services, and training solutions in the electronics manufacturing and semiconductor industries, is pleased to announce that it will be featuring the [VIGON® PE 190A](#) alkaline defluxing agent at SEMICON West 2019.

[VIGON® PE 190A](#), based on ZESTRON's patented MPC® Technology (Micro Phase Cleaning), is a water-based, alkaline cleaning agent specifically developed to remove flux residues from PCBs as well as power electronics including leadframes, discrete devices, power modules, and power LEDs.

For more information on our complete line of semiconductor and PCB defluxing agents and other cleaning process solutions, visit ZESTRON at booth #5672 during [SEMICON West](#).

About ZESTRON:

ZESTRON is headquartered in Manassas, Virginia and operates in more than 35 countries. With eight technical centers worldwide and the industry's most knowledgeable team of engineers focused on high precision cleaning, ZESTRON's commitment to ensuring that its customers surpass even the most stringent cleaning requirements is without equal.

For additional information or to tour one of our technical centers, please visit www.zestron.com.
