pH Neutral Defluxing Agent to be Featured at SMTA Monterrey

Manassas, VA – September 6, 2018 [ZESTRON](#), the globally leading provider of high precision cleaning products, services and training solutions in the electronics manufacturing and semiconductor industries, will feature VIGON® N 680 at the SMTA Monterrey Expo.

[VIGON® N 680](#), based on the [MPC® Technology](#) (Micro Phase Cleaning), is a water-based, pH neutral cleaning agent specifically developed for the use in spray-in-air inline and batch equipment. VIGON® N 680 removes a broad range of electronic assembly flux residues with an exceptional ability to penetrate and clean under low standoff components.

The SMTA Monterrey Expo and Tech Forum will be held at the Crowne Plaza in Monterrey, Mexico on September 12th. For more information or to register, please visit [smta.org](#).

About ZESTRON:

Headquartered in Manassas, Virginia, and operating in more than 35 countries, ZESTRON is the globally leading provider of high precision cleaning products, services and training solutions for the electronics and semiconductor manufacturing industries. With eight worldwide technical centers and the largest team of engineers focused on high precision cleaning, ZESTRON's commitment to ensuring that its customers surpass even the most stringent cleaning requirements is without equal.
