pH Neutral Defluxing Agents to be Featured by ZESTRON at SMTA Guadalajara

Manassas, VA – November 1, 2018 [ZESTRON](#), the global leading provider of high precision cleaning products, services, and training solutions in the electronics manufacturing and semiconductor industries, will be promoting the latest in pH neutral solutions for high precision cleaning at the SMTA Guadalajara Expo and Tech Forum.

Since the introduction of its first pH neutral defluxing agent in 2010, ZESTRON has continually expanded its [VIGON®](#) and [HYDRON®](#) product families with solutions for use in the high precision cleaning of electronic assemblies and advanced packages for military, automotive, aerospace, and consumer electronics markets.

ZESTRON's environmentally-friendly, pH neutral cleaning agents deliver uncompromised cleaning results to customers working with today's low standoff component heights and higher component density while offering excellent material compatibility and a safer working environment.

The SMTA Guadalajara Expo and Tech Forum will be held at the Expo Guadalajara, on November 14th-15th. For more information or to register, please visit [smta.org](#).

About ZESTRON:

Headquartered in Manassas, Virginia, and operating in more than 35 countries, ZESTRON is the global leading provider of high precision cleaning products, services and training solutions for the electronics and semiconductor manufacturing industries. With eight worldwide technical centers and the largest team of engineers focused on high precision cleaning, ZESTRON's commitment to ensuring that its customers surpass even the most stringent cleaning requirements is without equal.
