Indium Corporation Announces New Sales Director

Indium Corporation announces David Preische as the new Director of Sales for the Metals & Chemicals Division.

Dave is responsible for expanding the Metals & Chemicals market by providing hands-on salesmanship. With his educational background in engineering, business management and psychology, and his 20 years of industry experience with Indium Corporation, Dave is aptly suited to provide global leadership for the growing Metals & Chemicals Business Unit.

Dave is based in his home state of Texas, USA.

Indium Corporation is a four-time Frost & Sullivan Award-winning supplier of electronics assembly materials, including solder pastes, solder preforms, fluxes, Pb-Free solder alloys, underfill materials, die-attach materials, and more. The company is also the world's premiere supplier of commercial grade and high-purity indium. Factories are located in the USA, the United Kingdom, Singapore, and China. Founded in 1934, the company is ISO 9001 registered.

For more information on Indium Corporation visit www.indium.com or email askus@indium.com.
