

Koh Young Honored by Foxconn with 2024 Digital Ecosystem Partner Award

Seoul, Korea – Koh Young Technology, the global leader in True 3D measurement-based inspection solutions, is proud to announce that Foxconn honored us on November 15, 2024, with its prestigious **2024 Digital Ecosystem Partner Award**. This accolade underscores the strength of the strategic partnership between Koh Young and Foxconn, highlighting Koh Young’s pivotal role in advancing digital transformation and Smart Factory initiatives within the electronics manufacturing industry.

Foxconn, a global leader in manufacturing services, established the Digital Ecosystem Partner Award to recognize organizations that drive seamless integration of technologies and systems across the manufacturing lifecycle. This award celebrates Koh Young’s innovative solutions, which streamline operations and enable data-driven decision-making to enhance product quality and manufacturing efficiency.

A Shared Vision for Smart Manufacturing

A digital ecosystem in manufacturing centers on interconnected technologies that foster real-time insights, optimized processes, and enhanced collaboration. Koh Young has been instrumental in supporting Foxconn’s operations with innovative solutions that seamlessly integrate into their manufacturing processes, enabling real-time quality control and optimizing production efficiency.

Koh Young’s True 3D inspection systems and its KSMART smart factory platform have played a crucial role in helping Foxconn achieve its Smart Factory objectives. By providing actionable data and comprehensive connectivity, Koh Young helps Foxconn drive measurable improvements in productivity and product consistency across its global operations.

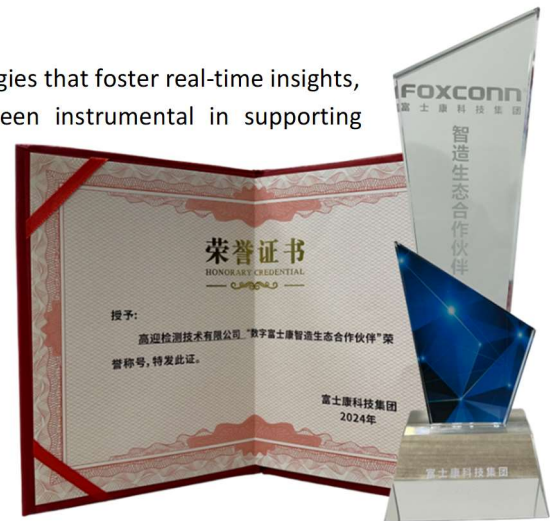

Recognizing the Value of Partnership

“This award is a testament to our strong collaboration with Foxconn and our shared commitment to advancing Smart Factory innovations,” said Steven Choi, General Manager Koh Young China. “We are honored to support Foxconn’s vision for a fully connected and optimized digital ecosystem, and we look forward to building on this partnership as we continue to shape the future of electronics manufacturing.”

Driving Innovation Together

In 2024, Koh Young made significant strides in empowering manufacturers with tools and insights to drive Industry 4.0 transformation. From launching new technologies to fostering partnerships with global leaders like Foxconn, Koh Young remains at the forefront of the industry’s digital transformation journey. As Koh Young continues to push the boundaries of electronics manufacturing, this award serves as a powerful reminder of the value of collaboration and the transformative potential of a well-executed digital ecosystem.

With this latest recognition, Koh Young solidifies its reputation as a trusted partner in the manufacturing industry, helping customers optimize productivity and reduce costs through innovative, process-driven solutions. About Koh Young Technology, Inc.

Established in 2002, Koh Young revolutionized the inspection market by launching the industry's first 3D Solder Paste Inspection (SPI) system using a patented dual-projection Moiré technology. Since then, it has become the global leader in 3D measurement-based SPI and Automated Optical Inspection (AOI) equipment for the electronics industry. Based on its True 3D measurement-based inspection technology, Koh Young has developed innovative inspection solutions for challenges with machined parts, press-fit and through-hole pins, conformal coatings, dispensed materials, and semiconductor packages. Through its constant innovation, Koh Young has secured over 3,700 global customers and commands the dominant global market share position in the SPI and AOI markets with over 24,000 machine installations. By adopting a user-centric R&D focus, it continues to use its core competencies to develop innovative solutions for new and existing markets by listening to our customers and researching emerging trends and applications. From the headquarters in Korea, activities spread across the world through its global sales and support infrastructure spanning Europe, Asia, and the Americas. These regional offices ensure Koh Young stays close to the market, and more importantly, its growing user base. Learn why so many electronics manufacturers trust Koh Young for reliable inspection for a smart factory at our website www.kohyoung.com.
