News Release

FOR IMMEDIATE RELEASE

The Ultimate Flux Management Solution from BTU at SEMICON Taiwan

NORTH BILLERICA, Mass., September 2022 — BTU International, Inc., a leading supplier of advanced thermal processing equipment for the electronics manufacturing market, will exhibit at to exhibit at SEMICON Taiwan, scheduled to take place Sept. 14-16, 2022 at TaiNEX 1 in Taipei. The company will feature its Aqua Scrub™ Flux Management Technology in Booth #N1089.

The Aqua Scrub is purpose-built as a stand-alone system that can be easily retrofitted on PYRAMAX™ reflow ovens already in the field as well as being configured on new PYRAMAX ovens. This self-contained unit mounts on the back side of the oven to minimize the impact on oven operation and factory floor space.

The next-generation solder reflow flux management system is designed to decrease operational cost by 4X compared to traditional condensation systems. Aqua Scrub's patent-pending design uses an aqueous-based scrubber technology compatible with most known paste and flux types.

With a low cost-of-ownership, Aqua Scrub reduces downtime, labor and disposal costs. The flux and solution are automatically contained and packaged for disposal.

About BTU International

BTU International, a wholly-owned subsidiary of Amtech Group (Nasdaq: ASYS), is a global supplier and technology leader of advanced thermal processing equipment in the electronics manufacturing market. BTU's high-performance reflow ovens are used in the production of SMT printed circuit board assemblies and in semiconductor packaging processes. BTU also specializes in precision controlled, high-temperature

belt furnaces for a wide range of custom applications, such as brazing, direct bond copper (DBC), diffusion, sintering and advanced solar cell processing. BTU has operations in North Billerica, Massachusetts, and Shanghai, China, with direct sales and service in the U.S.A., Asia and Europe. Information about BTU International is available at www.btu.com.
