Libra Industries Sponsors 2018 Pan Pacific Microelectronics Symposium

MENTOR, OH — January 2018 — Libra Industries, a privately held electronics manufacturing services (EMS) provider, is pleased to announce that it is a corporate sponsor of the 2018 SMTA Pan Pacific (Pan Pac) Microelectronics Symposium. The event is scheduled to take place Feb. 5-8, 2018 at the Hapuna Beach Prince Hotel on the Big Island of Hawaii. Libra Industries has always been and remains very passionate about supporting the efforts and mission of the SMTA.

“We love to support the SMTA and truly believe in their mission,” commented Rod Howell, CEO of Libra Industries. “We look forward to attending the upcoming Pan Pacific Symposium.”

Pan Pac promotes international technical interchange and provides a premier forum for networking among microelectronics professionals and business leaders throughout the world. In addition to several inspiring keynotes, the event will feature ground-breaking research from global experts on advanced packaging & processes, automotive systems & hardware, cleaning technologies, heterogeneous integration, inspection & test techniques, interposer & packaging technology, materials & reliability, nanotechnology applications, and more.

Libra Industries serves a diverse base of industries such as medical, military/aerospace, industrial and LED lighting with the highest quality requirements. Libra Industries continues to invest to provide customized manufacturing solutions to help make its customers more competitive and improve their profitability. About Libra Industries

Libra Industries is a leading provider of integrated Electronic Manufacturing Services (EMS), serving OEMs with complex or technologically sophisticated manufacturing requirements in a broad range of industries including industrial automation, medical, military and aerospace, instrumentation and LED lighting. Four world-class manufacturing facilities allow Libra Industries to provide customers with manufacturing flexibility including complete system build, module and subassembly production, as well as simple to complex PC board assembly. With an ongoing commitment to investment in people, quality systems, and the latest manufacturing equipment and processes, Libra Industries is committed to managing their clients' products from initial design and prototype to full production; assisting their clients in their efforts to improve time to market, reduce total systems cost, and increase quality.
