Nordson Electronics Solutions to demonstrate popular automated fluid dispensing systems for microelectronics manufacturing at SEMICON China 2023

- See equipment demonstrations for semiconductor packaging, and talk to Nordson experts in booth E4617

High resolution image available at: <https://nordson.news/2306Forte>

Carlsbad, CA, USA – **27 June 2023** – [Nordson Electronics Solutions](#), a global leader in electronics manufacturing technologies, will demonstrate their latest solutions for semiconductor packaging and electronics manufacturing, with partner AMT at the SEMICON China tradeshow, booth E4617. At the booth, you will see these systems:

- The popular ASYMTEK [Vantage® fluid dispensing system](#), Nordson's most advanced dispensing platform, is designed for high-end semiconductor packaging and assembly. Fast and accurate, the Vantage, when configured with dual [IntelliJet valves](#), can jet into gaps less than 200 um, and up to 90,000 dots per hour.
- The newest ASYMTEK [Forte® fluid dispensing system](#) offers exceptional dispensing productivity and accuracy for high-volume consumer electronics, flexible circuit, MEMs, and electromechanical assembly applications. Forte offers real-time skew correction (patented) for better wet dispense accuracy and yield, as well as fast, repeatable setup with automated calibration.

- Both systems offer fine-line dispensing capabilities to meet requirements for underfill, gap fill, sealing lines for fan-out/fan-in, strips, and module assembly.

Experts will be ready to discuss how Nordson can support your operations for reliable electronic products. SEMICON China will be held at the New International Expo Centre, Shanghai, China, June 29 – July 1, 2023.

About Nordson Electronics Solutions

[Nordson Electronics Solutions](#) makes reliable electronics an everyday reality. Through our [ASYMTEK](#), [MARCH](#), and [SELECT](#) brands, we supply the world's semiconductor, printed circuit board, and precision assembly manufacturers with the innovative fluid dispensing and surface treatment solutions they need to protect sensitive electronics. Day after day, year after year, across the globe, for over 35 years, we've delivered cutting-edge engineering and applications excellence to help our customers succeed.

About Nordson Corporation

Nordson Corporation (NASDAQ: NDSN) is an innovative precision technology company that leverages a scalable growth framework to deliver top tier growth with leading margins and returns. The Company's direct sales model and applications expertise serves global customers through a wide variety of critical applications. Its diverse end market exposure includes consumer non-durable, medical, electronics and industrial end markets. Founded in 1954 and headquartered in Westlake, Ohio, the Company has operations and support offices in over 35 countries. Visit Nordson on the web at www.nordson.com.
