Ultrasonic Systems Adds Trident Electronics as Asian Distributor for PRISM Spray Coating Systems

Haverhill, MA, February 21, 2018 – Ultrasonic Systems, Inc. (USI) today announced it has added a new distributor, [Trident Electronics Technologies](#), a high-tech equipment and material supplies distribution company headquartered in Singapore with branches in major Asian manufacturing hubs. Trident supports both major multinational companies and small-to-medium sized enterprises, focusing on laboratory and production equipment for the electronics, aerospace, solar and semiconductor industries.

Trident will distribute USI's PRISM line of high performance spray coating systems, which provide greater process control and uniformity than conventional air-atomizing or ultrasonic spray nozzle-based coating systems at thousands of installations worldwide spanning solar (silicon and thin-film), fuel cell, display, semiconductor, nanotechnology, electronics assembly, medical devices, and other applications. USI's nozzle-less design delivers 5x thinner coatings with transfer efficiency of up to 99%. USI's product line includes [PRISM -400](#), [PRISM -500](#), [PRISM -800](#), [PRISM -1200](#) for larger format coating applications as well as the [PV-360](#) for the application of dopants to solar wafers.

About Trident Electronics Technologies

Trident is managed by a team with over twenty years' experience in the sales, marketing, service and support of high tech equipment and supplies in the Asian region. Our branches are strategically located in major Asian manufacturing hubs supporting major multinational companies as well as local enterprises. Our team of experienced applications and service support engineers are technically competent and are dedicated to support our customers around the region.
