

MEDIA ALERT

PDF Solutions' CEO John Kibarian Keynotes 2025 Advanced Process Control and Smart Manufacturing Conference September 23

- *PDF Solutions Serves as Keynote Sponsor*
- *John Kibarian Keynotes CEO Summit with "Revolutionizing Semiconductor Collaboration: The Emergence of AI-Driven Industry Platforms"*

SANTA CLARA, Calif.—September 11, 2025—John Kibarian, CEO, President and Co-Founder of [PDF Solutions, Inc.](#) (Nasdaq: PDFS), presents the keynote talk "The Evolution of Semiconductor Collaboration" during the 2025 Advanced Process Control and Smart Manufacturing Conference (APCSM 2025) Tuesday, September 23.

PDF Solutions is a Silver Sponsor of ASPCM, which begins Monday, September 22, and goes through Thursday, September 25, at Cliff Lodge in Snowbird, Snowbird, Utah.

Other PDF Solutions presenters at APCSMM include:

- Alan Weber, Vice President, New Product Innovations, Jonathon Holt, Senior Director of Product Management, and Brian Rubow, Director of Global Solutions Engineering offer an invited tutorial titled "Smart Manufacturing System Engineering for Semiconductor Factories, Monday, September 22, from 8 a.m. until noon.
- Weber presents "Realizing an AI/ML Framework for Equipment Applications," Tuesday at 11:30 a.m.
- Data Scientist Prakul Sharma discusses "Scalable Change Point Detection for Manufacturing Time Series: A Big Data Approach for Anomaly Detection" Tuesday at 3:30 p.m. presentation.
- Sanjana Gajendran, a Data Scientist, addresses "Machine Learning Algorithms to address class imbalance and limited training data in semiconductor testing" Wednesday, at 11:30 a.m.
- Solutions Architect Edward Zhou; Machine Learning-based Dynamic Testing" Wednesday at 2:30 p.m.

About PDF Solutions

[PDF Solutions](#) (Nasdaq: PDFS) provides comprehensive data solutions designed to empower organizations across the semiconductor and electronics industry ecosystems to improve the yield and quality of their products and operational efficiency for increased profitability. The Company's products and services are used by Fortune 500 companies

across the semiconductor ecosystem to achieve smart manufacturing goals by connecting and controlling equipment, collecting data generated during manufacturing and test operations, and performing advanced analytics and machine learning to enable profitable, high-volume manufacturing.

Founded in 1991, PDF Solutions is headquartered in Santa Clara, Calif., with operations across North America, Europe, and Asia. The Company (directly or through one or more subsidiaries) is an active member of SEMI, INEMI, TPCA, IPC, the OPC Foundation, and DMDII.
