Nordson Electronics Solutions to demonstrate automated fluid dispensing and plasma treatment systems for wafer- and panel-level packaging at SEMICON China 2026, in booth #3601

- **Printed circuit board assembly equipment will also be demonstrated at Productronica China, held at the same exhibition center, same dates**

Carlsbad, CA, USA – 11 March 2026 - [Nordson Electronics Solutions](#), a global leader in reliable electronics manufacturing technologies, will demonstrate their latest equipment for [semiconductor manufacturing](#) at [SEMICON China 2026](#), booth 3601 (Hall N2), in the Shanghai New International Expo Centre, March 25-27, 2026.

- The [ASYMTEK Vantage® fluid dispensing system](#) is popular for wafer-level and panel-level packaging dispensing applications, such as precise, fine lines for underfill, gap fill, sealing lines for fan-out/fan-in, strips, and module assembly. A new cleanroom configuration for the Vantage system will be previewed in the booth. It is designed to meet Class-100 standards for customers who require cleanroom-compatible operations for advanced packaging.
- The [MARCH FlexTRAK® plasma system](#) in its stand-alone configuration will also be exhibited in the booth. This versatile plasma system delivers high-throughput surface treatment in a slim footprint to process components for semiconductor manufacturing. Flexible plasma chamber configurations support contamination removal, etching, and surface activation before die attach, wire bond, molding and encapsulation, and underfill applications.

- Experts will be ready to answer questions, discuss industry trends, and help navigate the challenges of advanced semiconductor packaging to meet the needs of today's fast-paced innovations.

Productronica China will be held at the same time, March 25-27, in the same exhibition center in Shanghai. Several things to note:

- Nordson Electronics Solutions will participate in the *Electronic Intelligent Manufacturing Forum* technical conference. Kahn Huang, application manager, Nordson Electronics Solutions, China, will speak on the topic, "Nordson Empowers AI Smart Factories and Effectively Improves Process Reliability".
- In addition, two partners will exhibit Nordson Electronics Solutions equipment in Hall E4:
 - [AMT](#) will exhibit the [ASYMTEK Spectrum II S2-900 Precision Fluid Dispensing System](#) at Productronica China, Booth 4240.
 - [Ecelent](#) will exhibit three systems: [ASYMTEK Vantage® fluid dispensing system](#), [ASYMTEK Select Coat SL-1040 Conformal Coating](#) system, and the [MARCH FlexTrack-CD](#) at Productronica China, Booth 4590.

Image CAPTION: See Nordson Electronics Solutions' plasma treatment & fluid dispensing equipment for semiconductor manufacturing demonstrated at SEMICON China 2026. The industry-leading ASYMTEK [Vantage® Series](#) fluid dispensing system equipped with the ASYMTEK [IntelliJet® Jetting system](#) is driving innovations for underfilling during semiconductor advanced packaging, including panel-level and wafer-level packaging.

About Nordson Electronics Solutions

[Nordson Electronics Solutions](#) makes reliable electronics a reality. Through our ASYMTEK, MARCH, and SELECT brands, we supply the world's semiconductor, electronics, and precision assembly manufacturers with the innovative [fluid dispensing](#), [conformal coating](#), [plasma treatment](#), and [selective soldering](#) solutions their products need to protect sensitive electronics and deliver a lifespan of reliability. Day after day, year after year, across the globe, for over 40 years, we've provided engineering and applications excellence to help our customers succeed.

About Nordson Corporation

Nordson Corporation (NASDAQ: NDSN) is an innovative precision technology company that leverages a scalable growth framework through an entrepreneurial, division-led organization to deliver top tier growth with leading margins and returns. The Company's direct sales model and applications expertise serves global customers through a wide variety of critical applications. Its diverse end-market exposure includes consumer non-durable, medical, electronics and industrial end markets. Founded in 1954 and headquartered in Westlake, Ohio, the Company has operations and support offices in over 35 countries. Visit Nordson on the web at www.nordson.com.
