Asahi Kasei Receives 2025 TSMC Excellent Performance Award in Recognition of Its PIMEL™ Photosensitive Dielectric for Advanced Packaging Material

Tokyo – December 11, 2025 – Asahi Kasei received a 2025 TSMC Excellent Performance Award for “Excellent Technology Development and Production Support” in Advanced Packaging materials at the 2025 Supply Chain Management Forum held by Taiwan Semiconductor Manufacturing Co., Ltd. on November 25, 2025.

The award recognizes suppliers for their outstanding performance in the development of innovative technologies and production support for Advanced Packaging materials during the past year.

Nobuko Uetake, Senior Executive Officer of Asahi Kasei and key leader in the company’s electronics materials business, commented, “Our electronics business including PIMEL™ is positioned as First Priority in Asahi Kasei’s [‘Trailblaze Together’ medium-term management plan for fiscal 2025–2027](#). We have developed PIMEL™ products that meet diverse customer requirements by leveraging years of advanced technological expertise, and are making proactive investments to ensure stable supply, including the launch of a new plant. We look forward to continuing to support the rapidly evolving field of advanced semiconductors, especially for AI-related applications.”

About Asahi Kasei

The Asahi Kasei Group contributes to life and living for people around the world. Since its foundation in 1922 with ammonia and cellulose fiber business, Asahi Kasei has consistently grown through the proactive transformation of its business portfolio to meet the evolving needs of every age.
