April 30, 2025

Die attach technology and team collaboration propel materials leader to top ranking

### **Henkel wins Texas Instruments 2024 Supplier Excellence Award**

Kuala Lumpur, Malaysia – Henkel is proud to announce that it has won the Texas Instruments 2024 Supplier Excellence Award. The most prestigious level of supplier recognition, the award highlights suppliers that exemplify the highest standards of innovation, collaboration, and performance.

“We are humbled and honored to be recognized by Texas Instruments with this distinction,” says Wen Zhou, Corporate Vice President Electronics at Henkel Adhesive Technologies. “Winning this award is a testament to our team’s expertise in die attach materials innovation, adherence to the most rigorous standards, and a collaborative, can-do mindset. Our partnership with Texas Instruments helps advance some of today’s most cutting-edge analog and embedded semiconductor technologies for critical markets like automotive, industrial, and communications. We are delighted to be an enabler of this consequential work.”

According to Texas Instruments, factors that contributed to Henkel’s top-performing supplier status included “the team’s consistent prioritization of Texas Instruments as a customer, quick response, creative ideas, and a willingness to challenge the status quo so that both companies can grow together.”

With over 20,000 suppliers, Texas Instruments evaluates the companies across six areas: cost, environmental and social responsibility, technology, responsiveness, and assurance of supply and quality. With this framework of objective assessment, the best suppliers that exemplify excellence are identified. This year, 19 suppliers were named Supplier Excellence Award winners.

“Henkel is thrilled to be among such an elite group of suppliers and deeply appreciative of Texas Instruments for recognizing our role in its success with the 2024 Supplier Excellence Award,” concludes Zhou. “We are excited about the future of our partnership and know that together, we can push innovation even further!”

### **About Henkel**

With its brands, innovations and technologies, Henkel holds leading market positions worldwide in the industrial and consumer businesses. The business unit Adhesive Technologies is the global leader in the market for adhesives, sealants and functional coatings. With Consumer Brands, the company holds leading positions especially in laundry & home care and hair in many markets and categories around the world. The company's three strongest brands are Loctite, Persil and Schwarzkopf. In fiscal 2024, Henkel reported sales of more than 21.6 billion euros and adjusted operating profit of around 3.1 billion euros. Henkel's preferred shares are listed in the German stock index DAX. Sustainability has a long tradition at Henkel, and the company has a clear sustainability strategy with specific targets. Henkel was founded in 1876 and today employs a diverse team of about 47,000 people worldwide – united by a strong corporate culture, shared values and a common purpose: "Pioneers at heart for the good of generations."
