FOR IMMEDIATE RELEASE

Entrepix to Highlight CMP and Wafer Cleaning Solutions at SEMICON India 2026

Partnership with India Handotai Supports Growing Demand for Advanced Wafer Processing Technologies in India

PHOENIX, AZ, September 15, 2026 — Entrepix, Inc., a globally recognized expert in CMP and wafer cleaning and a subsidiary of Amtech Systems, Inc., today announced its participation in SEMICON India 2026 through its representative and channel partner, India Handotai.

The event will be held September 17-19, 2026, at Yashobhoomi (India International Convention & Expo Centre) in New Delhi, India. Entrepix technologies will be featured at India Handotai's Booth H4618.

As semiconductor manufacturing capacity expands across India, Entrepix is bringing its expertise in chemical mechanical planarization (CMP), wafer cleaning, equipment upgrades, replacement parts and process development services to support emerging semiconductor manufacturers and advanced packaging operations.

"India represents one of the most exciting growth opportunities in the global semiconductor industry," said Jason Brown, Vice President and General Manager of Entrepix. "By working with India Handotai, we are able to provide local access to Entrepix

technology, applications expertise and service capabilities that help customers improve yield, reduce costs and accelerate production ramps."

During the event, Entrepix will showcase its CMP equipment support capabilities, replacement parts and upgrades for installed CMP platforms, foundry services for process development, and its DSS-200 wafer cleaning system designed for semiconductor and advanced substrate applications.

Attendees will have the opportunity to discuss solutions for silicon carbide (SiC), advanced packaging, photonics, MEMS, and other emerging semiconductor applications where process control, wafer cleanliness and reliable equipment performance are critical to manufacturing success.

To learn more about Entrepix products and services, visit www.entrepix.com or meet with India Handotai at Booth H4618 during SEMICON India 2026.

About Entrepix Inc.

Entrepix Inc., a member of the Amtech Group, is a global leader in CMP solutions, offering parts, upgrades, process development, and wafer cleaning systems. Their high-quality replacement parts outperform OEM standards, delivering lower cost, faster delivery, and greater reliability. Entrepix also operates a state-of-the-art CMP foundry for advanced process development and wafer planarization. The company also manufactures and sells the industry's leading double-sided wafer cleaning system for semiconductor and advanced substrate applications. Headquartered in Phoenix, AZ, Entrepix supports customers across the U.S., Asia, and Europe. Learn more at www.entrepix.com.
