

Press release

Kurtz Ersä to Showcase SRO-716 and Semiconductor Solutions at SEMICON West 2026

Plymouth, WI — September 2026 — Kurtz Ersä Inc., a leading supplier of electronics production equipment, will feature its semiconductor manufacturing capabilities at Booth 6382 during SEMICON West 2026, taking place October 13-15 at the Moscone Center in San Francisco, California. The company will feature the SRO-716, while highlighting its broader family of semiconductor manufacturing solutions designed to address the evolving requirements of advanced electronics and semiconductor applications.

The SRO-716 represents a key solution within Kurtz Ersä's portfolio for semiconductor manufacturing. Visitors to SEMICON West will have the opportunity to learn more about the system and how Kurtz Ersä's technology can support demanding production environments requiring precision, process control, and reliable performance.

In addition to the SRO-716, Kurtz Ersä will highlight its comprehensive SRO semiconductor product family, which includes the SRO i-LINE, SRO-Getter, SRO-716, and SRO-700, as well as the PEO-604. Together, these solutions demonstrate the range of Kurtz Ersä's technology offering for semiconductor-related manufacturing applications.

The SRO i-LINE provides a dedicated platform within the company's semiconductor portfolio, while the SRO-Getter and SRO-700 further expand the range of available SRO solutions. The PEO-604 complements the portfolio, giving manufacturers additional options for addressing specialized semiconductor production requirements.

The company's presence at SEMICON West emphasizes its continued commitment to serving the semiconductor industry with advanced manufacturing technologies. By bringing together a broad portfolio of specialized equipment and process expertise, Kurtz Ersä helps manufacturers address the increasing demands for precision, repeatability, and production efficiency.

Visit Kurtz Ersä at Booth 6382 during SEMICON West 2026 to discover the SRO-716 and learn more about the complete SRO semiconductor product family and PEO-604.
