

Nordson Test & Inspection Opens State-of-the-Art Center of Excellence

New multi-purpose facility showcases company's industry-leading semiconductor and SMT inspection and metrology offerings and serves as a specialized demonstration, training and testing center

Minneapolis, Minnesota — August 20, 2026 — [Nordson Test & Inspection](#), a global leader in test, inspection and metrology solutions for semiconductor and SMT markets, has announced the opening of a brand-new, purpose-built Center of Excellence in Phoenix, Arizona. Comprising Nordson's best in-class precision technologies, the multi-functional building will serve as a state-of-the-art showroom and demonstration facility for customers. It will also operate as a dedicated, training and testing facility.

Featuring a wide array of Nordson Test & Inspection's industry-leading technology solutions, the new Center of Excellence is designed to foster collaboration and facilitate knowledge sharing by connecting Nordson's product and technology experts with a range of visitors, including customers, partners, industry experts and media.

Mayor of Phoenix, Kate Gallego, said: "We are delighted to welcome Nordson to Phoenix. We are home to one of the fastest-growing technology ecosystems in the world, and Nordson will be a great part of it. It was a pleasure to learn more about the company's incredible technology, and we know Nordson will be a key part of our ecosystem. We are so glad to see the company investing in our beautiful South Mountain area and wish the team incredible success."

"Our dedicated new facility comprises the broadest, best-in-class portfolio of inspection and metrology solutions for semiconductor and electronics assembly manufacturing," said Madhukar Keer, Vice President of Optical Sensors & Metrology Division, "We are excited that our visitors can explore cutting-edge technologies, connect with experts, and discover how Nordson is shaping the future of inspection and metrology."

"Our Center of Excellence provides customers with the opportunity to see, evaluate and validate advanced inspection technologies for their applications, helping them make informed and confident investment decisions. The ability to evaluate solutions through these full demonstrations is essential for customers to understand how we can help them improve yields, processes and productivity," said Brian Dodier, Vice President of X-Ray & Test Division.

Reflecting its position as a hub for learning, the new complex will operate as a specialized training and testing center where Nordson will provide educational sessions on both new and existing solutions. Among the suite of flagship systems installed at the center are the [SQ7000+](#), [SQ5000Pro](#), [SQ3000M2](#) and [FX-940](#) UV Optical systems, [Quadra7Pro](#), [Quadra5Pro](#) Manual X-Ray systems, [X3](#) and [XS](#) Automated X-Ray systems, [4800 Integra](#) Bond Tester and [Gen 7](#) Acoustic system. The wireless, real-time [WaferSense](#) semiconductor metrology sensors, designed for semiconductor tool set-up and maintenance are also available to experience.

Visitors will also see first-hand how Nordson continues to advance AI, DL and ML capabilities under the Nordson Intelligence ecosystem across technology platforms.

The Phoenix facility forms part of Nordson's continued investment in expanding access to its technologies, expertise and customer-support capabilities globally.

Already fully equipped and operational, the new Nordson Test & Inspection Center of Excellence is located at 4405 East Baseline Road, Suite 121, Phoenix, AZ.

About Nordson Test & Inspection

[Nordson Test & Inspection](#) is uniquely positioned with an industry-leading portfolio of proprietary test, inspection and metrology solutions including Acoustic, Optical, X-ray technologies for Semiconductor and SMT customers to improve yields, processes and productivity. Nordson Test & Inspection is at the forefront, advancing advanced AI, DL, and ML capabilities, all under the Nordson Intelligence ecosystem. Best-in-class high-precision technologies are complemented by passionate sales and support teams, unmatched consultative applications expertise and a strong focus on operational excellence with a broad global reach.

About Nordson

Nordson Corporation (Nasdaq: NDSN) is an innovative precision technology company that leverages a scalable growth framework through an entrepreneurial, division-led organization to deliver top tier growth with leading margins and returns. The Company's direct sales model and applications expertise serves global customers through a wide variety of critical applications. Its diverse end market exposure includes consumer non-durable, medical, electronics and industrial end markets. Founded in 1954 and headquartered in Westlake, Ohio, the Company has operations and support offices in over 35 countries. Visit Nordson at www.Nordson.Com or LinkedIn/Nordson.
