FOR IMMEDIATE RELEASE

PR Hoffman to Showcase Advanced Polishing Consumables at SEMICON India 2026

Leading Provider of Wafer Carriers, Templates and Fixtures Expands Presence in Growing Indian Semiconductor Market

CARLISLE, P.A., September 15, 2026 —PR Hoffman, a division of Amtech Systems, Inc. (NASDAQ: ASYS) and a global leader in precision wafer lapping and polishing consumables, today announced its participation in SEMICON India 2026, taking place September 17-19, 2026, at Yashobhoomi (India International Convention & Expo Centre) in New Delhi, India.

PR Hoffman will be represented at the India Handotai booth (H4618), where attendees can learn about the company's broad portfolio of polishing carriers and templates used in semiconductor, silicon carbide (SiC), optics and advanced material manufacturing applications. PR Hoffman is known globally as the leader in polishing templates and carriers due to their ability to customize and commitment to the highest quality standards.

As India accelerates investments in semiconductor manufacturing and packaging capabilities, PR Hoffman sees significant opportunities to support wafer manufacturers and device makers with

solutions that improve process consistency, extend consumable life and reduce cost of ownership.

"India is rapidly emerging as an important semiconductor manufacturing hub, creating exciting opportunities for advanced wafer processing technologies," said Jason Brown, General Manager of PR Hoffman. "Working with our partner, India Handotai, allows us to bring our expertise in wafer polishing consumables directly to customers throughout the region and support their journey toward world-class semiconductor manufacturing capabilities."

Visitors to the India Handotai booth will have the opportunity to discuss PR Hoffman's solutions for silicon, silicon carbide, photonics and advanced optics applications, including the company's latest innovations designed to improve yield, maximize uptime and reduce operating costs.

SEMICON India is expected to attract more than 400 exhibiting companies and extensive participation from semiconductor manufacturers, suppliers, government agencies and industry stakeholders from across India and around the world.

About PR Hoffman

PR Hoffman, a member of the Amtech Group, is a global leader in precision lapping and polishing solutions for semiconductor, silicon carbide, optics, and advanced materials. The company designs and manufactures carriers, templates, and patented chemically resistant fixtures that deliver superior performance and extended lifetime. Headquartered in Carlisle, PA, PR Hoffman supports customers worldwide with innovative solutions for single- and double-sided processes. Learn more at www.prhoffman.com.
